You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

Motivation

Data Collection

What data will you collect or create?

We collect opinions and knowledge of 1000 citizens of Austria via an online survey.

How will the data be collected or created?

The data will be collected by a professional survey company and the research team will receive only anonymized data.

Documentation and Metadata

What documentation and metadata will accompany the data?

The metadata will contain the full questionnaire including the coding of the response options.

Ethics and Legal Compliance

How will you manage any ethical issues?

All survey participants are required to provide informed consent before the data is submitted to the survey company. An experienced data manager from the Energyinstitute will scrutinize the survey for ethical issues.

How will you manage copyright and Intellectual Property Rights (IPR) issues?

The foreseen research project is of pure academic interest and all results and collected data will be published without copyright and Intellectual Property Right issues.

Storage and Backup

How will the data be stored and backed up during the research?

A professional survey company with a track record in comprehensive storage and backup of data will be selected.

How will you manage access and security?

see above

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

All answers to the survey are of long term value and will be publicly shared. Any information potentially leading to the deanonymization of the participants is deleted by the survey company and will not be stored.

What is the long-term preservation plan for the dataset?

A dataset is published on <https://zenodo.org/>.

Data Sharing

How will you share the data?

A dataset is published on <https://zenodo.org/>.

Are any restrictions on data sharing required?

No.

Responsibilities and Resources

Who will be responsible for data management?

The project's data manager Johannes Reichl is responsible for the data management and suitable resources for his respective duties have been foreseen in the project budget.

What resources will you require to deliver your plan?

All resources required are time resources of the data manager.
